Declining GHI in Nepal: Alarming to Serious

Global Hunger Index (GHI)

GHI 2014

Nepal, India, Bangladesh, Pakistan
Reasons for Food Insecurity

• Less competitive agriculture
• Food price volatility
• Competition by non-food crops for land and water resources
• Climate change
• Failure to scale up technology adoption
• Green revolution technology not fitting well to hills and mountains
• Small size of land holdings, Low productivity,
• High transaction costs
• Post harvest losses and wastes
• High prevalence of poverty
Government efforts and prospects of regional cooperation

- Trade liberalization
- Increased budget to agriculture
- Agricultural commercialization
- Rights-based approach to food security
- Collaborating on agricultural research,
- SAARC seed bank
- SAARC food bank
SAARC and food security

• SAARC has made regional efforts in food security
• SAARC Food Bank (2007)
  – For emergency and food shortage
  – Simplified procedures for withdrawal and release of food grains
  – Provisions for price negotiation
  – A Food Bank Board to administer functioning of the Bank with authority to develop guidelines for price determination
  – Designated Nodal Point at national level
  – To provide regional support to national food security efforts
  – To foster inter-country partnerships and collective actions.
