Doha Gateway: towards 3-4 degree temp rise

Regional Consultation
Trade, Climate Change and Food Security in South Asia

Sanjay Vashist
Climate Action Network South Asia
20 Dec 2012

**Durban to Doha...**

- It was agreed to start second commitment period on Kyoto Protocol upto 2017 with follow up period
- It was agreed that a new negotiating track will start from Doha on post 2020 emission reduction framework (ADP) - *developed and developing countries onboard*
- It was agreed to conclude AWG LCA successfully in 2012 - *unfinished agenda to move appropriately*
- Equity and CBDRRC to be basis for ADP and need to be spelled out in time to come
Why Doha was important?

- A Doha amendment for a second commitment period of the Kyoto Protocol
- Non Kyoto developed countries adopt stringent QERLOs
- Developing countries to register NAMAs including pledges from Qatar
- Climate Finance - upto $100 billion + innovative climate finance
- Modalities for National Adaptation Plans
- Process to demystify Equity and CBD
- Loss and Damage - mechanism to compensate

What did we get?

- KP CP 2 - with 18% reductions by 2020 (1990 levels)
- LCA closed - with little progress on finance, technology transfer, adaptation, and loss and damage
- Work Program on Equity and CBD for 2 years
- Climate Finance bi-lateral pledges upto - 5 billion in 2013-2015
- ADP Negotiating track from Jan 2013 onwards
Agriculture in Doha

• Developing countries want Agriculture to be in Adaptation
• Developed countries want emissions from Agriculture to be in Preview
• Developed countries were supported by LDC to carry out research in this context

Tasks at Regional Level for South Asians

• Bring Clarity on Equity and CBDRRC, how this should translates into actions / sharing efforts
• Agriculture - should Mitigation from already vulnerable sector is required
• Innovative sources for Climate Finance - Air Passenger Levy, Cap on Aviation Sector, etc...
• Clarity on Architecture of NAMAs
• NAPs - preparing them in timebound and consultative manner
• Institutions to access Climate Finance - NIEs
Thank You
